...

Selectmen Monday approved a contract for alum treatment in Hinckley's Pond at a cost of \$347,300. Town Meeting approved \$575,000 for the project, which includes some infrastructure improvements. But selectmen were pleased the bid came in \$100,000 below the projected cost. The contract was awarded to **Solitude Lake Management**. **Natural Resources Director Heinz Proft** said he has researched the company and had good reports from the communities which have used its services.
